

9 August 1985

MEMORANDUM FOR: Deputy Director for Administration  
FROM: Director of Central Intelligence  
SUBJECT: Office of Security

25X1 When the change in leadership in the Office of Security is announced, I think it is important that the broadened nature of the security challenge be emphasized -- the Congressional interests, the Administration concerns, the new technical dimension,  technical background, etc. I think it should be emphasized that there was considerable sentiment for creating a new unit in DDS&T to focus on the technical penetration of the other dimensions of the technological threat to our security. It should seem to be a vote of confidence in the Office of Security that I decided to entrust it with this new responsibility as well as the physical and personnel security matters that it has handled so well and decided against turning it over to DDS&T.

William J. Casey

25X1
